Subject: Request Identifier Change from: N7N-MC5725 to VZ8703541CDMA

Ref: OET KDB 623615

Dear Examiner,

Pursuant to Paragraph §2.933 of the Commission's Rules (47 C.F.R.) and OET KDB 623615, L-3 Communication Systems – East (L-3 CS-E) requests a change to the FCC Identifier N7N-MC5725 for the Sierra Wireless radio module to VZ8703541CDMA for use in the L-3 Guardian™ CDMA product.

- (a) No design changes to N7N-MC5725 equipment were required for embedment into the L-3 Guardian™ CDMA product.
- (b) This change in identification will require permissive change which will be filed in accordance with Paragraphs §2.1043 and §2.911.
 - (1) N7N-MC5725 is the original identification used on this equipment.
 - (2) Authorization for N7N-MC5725 was originally granted on August 5th 2006.
 - (3) The N7N-MC5725 is embedded in the L-3 Guardian™ CDMA product. No design changes to N7N-MC5725 radio module were required for embedment into the L-3 Guardian™ CDMA product. However, the L-3 Guardian™ antenna is different than the antenna used in the equipment from the original Sierra Wireless grant.
 - (4) Conducted based test measurements from the aforementioned N7N-MC5725 filing apply to the L-3 Guardian™ product. Radiated based test measurements were completed on the L-3 Guardian™ CDMA device with the N7N-MC5725 installed and found to be compliant. Both conducted and radiated test reports will be submitted to the FCC. All test reports included in this filing were generated prior to this request and refer to the original equipment FCC ID N7N-MC5725 but are applicable to L-3 Guardian™ CDMA (VZ8703541CDMA).
 - (5) Photographs of equipment are attached.

If you have any questions, please feel free to contact me at the address below.

Sincerely,

Robert Honeywell
